## **The Adolescent Literacy Overview**

The Adolescent Literacy overview introduces recommendations to consider when establishing and planning a school-wide approach targeting 4<sup>th</sup>-12<sup>th</sup> grade content literacy for all students. This professional learning opportunity offers a systematic approach for the identification of strengths and weaknesses in literacy programming, development of a literacy leadership team, and methods to design a collaborative environment that fosters shared responsibility for learning. These key points include diagnosis of student needs and creating a common vision to meet the needs of all students to more fully access the content-area curriculum. This day will provide an opportunity to reflect on and engage in discussion around current practice and research as well as consider gap analysis which will lead to development of an action plan to ensure your programming meets the identified needs of all students.
